Fishing is a lifelong sport, something you can do alone, with your best friend, your family or anyone. Many adults who grew up with a fishing pole in their hands feel it is one of the best sports they ever started because of the rewards all through their life.

In your essay of one hundred (100) words or less, we would like to know what you think you will gain, learn, and develop from this fishing experience.

Your essay on the following statement will be judged against all other applicants to determine who will be invited to participate in the Mississippi Walleye Club’s “Kid’s Day Fishing Expo” which is offered to children ages 9 through 12. Use additional sheets if you need more space.
